# OUR *Story*

At HOME DELIGHT, we are more than just a plywood manufacturer; we are a manifestation of entrepreneurial zeal and a commitment to redefining quality and innovation in the plywood industry. Born from a passion for craftsmanship and a desire to bring the finest plywood solutions to your homes and projects, we proudly introduce ourselves as a dynamic startup with boundless energy and enthusiasm.

## MISSION AND VISION

Our mission at HOME DELIGHT is to revolutionize the plywood market by producing premium, technologically advanced plywood that surpasses industry standards. We aim to provide our customers with innovative, durable, and sustainable solutions that elevate the quality of their living spaces.

Our vision is to become a market leader in the plywood industry, recognized for our unwavering dedication to quality, innovation, and customer satisfaction. We aspire to be the go-to choice for architects, builders, and homeowners seeking plywood products that combine strength, aesthetics, and sustainability.

THE  
*everlasting*  
CREATION

by

# OUR *Quality*

## PREMIUM QUALITY

Our plywood is meticulously crafted to meet the highest standards of durability and strength. We believe in uncompromising quality. We are using the finest raw materials and state-of-the-art manufacturing processes, ensuring that each panel meets the highest industry standards. Our commitment to quality guarantees that your projects are built to last.

## STRENGTH AND DURABILITY

Our plywood is engineered for strength and durability. Whether it's for furniture, flooring, or structural applications, our products are designed to withstand the test of time and provide exceptional performance even in challenging conditions.

## TECHNOLOGICAL ADVANCEMENTS

We leverage cutting-edge technology in our manufacturing process. From advanced bonding techniques to precision cutting, we employ the latest innovations to create plywood that outperforms traditional options.

## SUSTAINABILITY

At HOME DELIGHT, we take our responsibility towards the environment seriously. Our plywood is sourced from sustainable forests, and we continuously strive to reduce our ecological footprint. We are committed to promoting eco-friendly practices in the industry.

## VERSATILITY

Our plywood products are versatile and adaptable, making them ideal for a wide range of applications. Whether you're working on a residential project or a commercial venture, our plywood solutions offer flexibility and reliability.

# WHY *Home Delight*

With Home Delight plywood, your design possibilities are endless. Our versatile range of products empowers architects, builders, and homeowners to turn their visions into reality.

## **UNWAVERING COMMITMENT**

We are dedicated to exceeding your expectations with top-notch quality and service.

## **INNOVATION**

We embrace the latest technology and materials to provide you with plywood that sets new standards.

## **SUSTAINABILITY**

We care about the environment and ensure our products are responsibly sourced and produced.

## **VERSATILITY**

Our plywood products are suitable for various applications, offering versatility and value.

## **CUSTOMER-CENTRIC APPROACH**

Your satisfaction is our priority, and we are here to support you every step of the way.

Welcome to HOME DELIGHT, where premium quality meets innovation. Join us on our journey to redefine excellence in the plywood industry. Together, we'll build stronger, more beautiful spaces.

## Introducing Home Delight's Sangrila Gold Collections.

Elevate Your Space with Unparalleled Elegance!

Experience the epitome of sophistication and durability with our Sangrila Gold Collections of plywoods. Crafted with precision and innovation, these exceptional plywoods are the perfect choice for those who demand nothing but the finest.

### MATTE PLY CONSTRUCTION

The Sangrila Gold Collections boast a luxurious matte finish that adds a touch of opulence to any interior. Its smooth, velvety texture is a testament to its premium quality.

### GURJAN AND NON-GURJAN FACE OPTIONS

Choose from our exquisite Gurjan and Non-Gurjan face options, each offering distinct characteristics to suit your specific needs and preferences.

### 4 TIMES PRESS AND 2 TIMES PRESS TECHNOLOGY

Our plywoods are meticulously engineered using cutting-edge 4 times press and 2 times press technology, ensuring unmatched strength and stability for your projects.

### CORE COMPOSED TECHNOLOGY

With core composed technology at its core, these plywoods are built to withstand the test of time, maintaining their integrity even under challenging conditions.

### TERMITE AND BORER RESISTANT

Rest easy knowing that our Sangrila Gold Collections are fortified against termites and borers, providing long-lasting protection and peace of mind.

### 100% CALIBRATED AND SEMI-CALIBRATED

Precision is our priority. Every piece of plywood in our collections is 100% calibrated or semi-calibrated, guaranteeing uniform thickness and flawless results in your applications.

# PLYLINE FIRE SAFE PLY

Fire-safe plywood, like other fire resistant building materials, is designed to provide added protection against the spread of fire in residential and commercial buildings. It is typically used for interior and exterior applications where fire resistance is a critical concern.

Here are its key characteristics:

100% GURJAN FACE

HARDWOOD

BOILING HOUR UPTO 144HR

100% CALIBRATED PLY

SMOOTH SURFACE

COST-EFFICIENCY

MULTIPLE SIZES

HIGH STRENGTH

CERTIFIED BY:

IS GRADE: 5509 FIRE RETARDANT PLY

## SPECIFICATIONS

Its use can help improve the overall fire safety of a structure.

Enhances home safety for occupants.

Meets building code requirements in some areas.

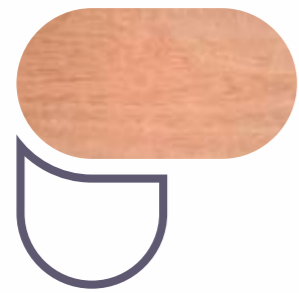

High-quality construction for long-lasting use

Provides confidence and potential insurance savings.

Bigger size availability reduces labour cost, saves time & smooth finish

Plywood Conforms to IS: 5509

PLYLINE

A quality product by:

# The Backbone of Every Construction

# SHUTTERING PLY

Home Delight's Shuttering Ply is a high-quality plywood product designed specifically for use in construction and formwork applications.

Here are its key characteristics:

DURABLE CONSTRUCTION

QUALITY ASSURANCE

WEATHER RESISTANCE

SUSTAINABILITY

SMOOTH SURFACE

EASE OF HANDLING

MULTIPLE SIZES

COST-EFFICIENCY

HIGH STRENGTH

VERSATILE APPLICATION

## SPECIFICATIONS

High GSM Film enhances surface finish & abrasion resistance.

More reuses/repetitions reduces overall cost of construction

Balanced construction provides high static bending strength

Dimensionally stable & structurally strong.

Less water absorption due to excellent sealing

Bigger size availability reduces labour cost, saves time & smooth finish

Plywood Conforms to IS: 4990
